

Health and Beauty Hints

BY MRS. MAE MARTYN.

O. M. A.: You can easily stop your hair from coming out by the comb if you will use about twice a week a quinine tonic that you can make yourself by dissolving an ounce of quinine in one-half pint of alcohol, adding an equal quantity of cold water. This tonic will destroy the dandruff germs in the hair roots, and put your hair and scalp in a healthy condition. I have no faith in any of the ready-prepared tonics, as none of them seems to do what is claimed for them. But if you will use the one I recommend, you will soon be no longer bothered with scalp and hair troubles. It is excellent for brittle or excessively oily hair, and is the best remedy I know for preventing premature baldness.

T. M. R.: You will find a face lotion made with spumax much better to use than any powder, particularly during the warmer weather. Dissolve 4 ounces of spumax in a half pint of hot water, and add two teaspoonsful of glycerine. Spumax is a dainty complexion beautifier. It will whiten and soften the skin, and give a youthful appearance when applied to the face, neck and arms. It does not rub off or show like powder, and is a splendid protection against freckles, tan and sunburn. A very expensive lotion will tone up your complexion to a wonderfully pleasing extent, and relieve you of that shiny, greasy look.

Mrs. Kate G.: You need not worry about your excess flesh at the approach of warm weather, as you can readily reduce your weight without dieting. Simply dissolve four ounces of parnosin in 1 1/2 pints warm water, and take a tablespoonful before each meal. This remedy reduces flesh rapidly and is perfectly harmless. It leaves the flesh firm and free from flabbiness. I know of many cases where a few weeks' treatment has restored many an overly fat person to a comfortable weight.

R. B. W.: Simply because your eyes tire easily and readily become inflamed is no proof that you need to wear glasses. Try dropping in each eye two or three times a day a few drops of a tonic made by dissolving an ounce of erysins in a half pint of water. This eye tonic is wonderfully strengthening, and very highly recommended for red, inflamed, weak or dull eyes. This sim-

ple remedy is endorsed and used by many eye specialists, and is fine for treating granulated eyelids. It will prove very soothing and restful to weak, overworked eyes.

C. R. E.: To make a good, greaseless complexion cream that will smooth and soften your rough skin and clear it of those pimples and blackheads, mix together an ounce of almond oil, two teaspoonsful of glycerine and one-half pint of cold water. Stir and let stand a few hours. Then apply freely. This cream jelly will remove all dirt and oil from the pores of your skin. I find it splendid for reducing the size of large pores, removing wrinkles and correcting flabbiness. Its continued use will do wonders in making one's complexion plump and velvety. I use nothing else for massage purposes.

Mrs. C. L.: Although your hair looks beautiful and not show any evidence of thinness if you will shampoo it every two weeks with a teaspoonful of canthrox dissolved in a cup of hot water. This will be none too often, as this is a very safe, reliable shampoo. It will cleanse your scalp as nothing else will; it dries very quickly and will loosen and fluff up your hair until there will seem to be twice as much of it. Try this shampoo a few times, and very likely you will no longer need to wear false hair; it will stop all irritation, remove the dandruff and restore your scalp to a healthy condition. Never shampoo with soap. The alkali in soap injures the hair, makes it dull, brittle and streaky. You can get a canthrox shampoo at most hair dressers or prepare it at home at small cost.

R. S. L.: External applications will not rid you of pimples and blotches caused by deranged digestion, bad blood or inactive liver. Try this old-fashioned, home-made tonic: Dissolve one-half cup sugar and one ounce karsene in one-half pint alcohol; then add enough boiling water to make a full quart. Take a tablespoonful before each meal and it will tone up your whole system, restore your lost appetite and give you energy and a will to work. This tonic will clear up a sallow complexion and purify the blood as nothing else will. Read Mrs. Martyn's Book, "Beauty," \$5.—Adv.

NEW UTAH DOCTOR

CHARLES EDWARD BRAIN.
Charles Edward Brain, son of Mr. and Mrs. C. A. Brain, 209 Second avenue, is one of Utah's boys to graduate from eastern colleges this spring. Mr. Brain has attended the Salt Lake high school and the University of Utah, and for the past three years has been at the Jefferson Medical college of Philadelphia, from which school he takes his degree in medicine. Dr. Brain is expected home some time in June, after visiting some of the principal cities in the east.

WORK ON HIGHLAND PARK TRENCH HARD

Rapid Progress Being Made and Water Will Be Running In It Within Ten Days.

Kimball & Richards, owners of Highland Park, just southeast of Sugar House, report that work of digging the trench for the long water main extension that is to serve Highland Park with city water, has started, and inasmuch as they have the statement of P. J. Moran, the contractor's agent, that the main will have water in it within ten days after work starts, they are jubilant at the rapid progress being made. City water, they say, is one of the big necessities to the selling of real estate, because it is the one city convenience that residence sections must have. The six-inch main will, they assert, furnish ample supply for that district for many years. The fact that the main has started is received as good news, not only by the owners of Highland Park and the persons who have already bought property there, but also by owners of property in the business district of Sugar House and the land adjacent, which will be served by this main. This main is one of the direct results of the annexation of Sugar House and territory adjacent three months ago. Highland Park plat B, which is just across Highland Park drive from plat A, soon will be placed on the market, and work on the installation of improvements such as are on the remainder of the tract has been started. These will include the graded and curbed streets, the cement sidewalks, alleys to the rear of each lot, trees planted, and for the lots along Highland Park drive, city water, as well as service from all the city's public utility companies. As soon as the tract is brought within the city limits, which it is predicted will be in the near future, water may be obtained from the city for the whole tract.

MILLARD COUNTY FOLKS UNITE; NAME OFFICERS

Permanent Organization Formed by Election—Reunion of Former Residents at Wandamere.

About 300 former residents of Millard county gathered at Wandamere yesterday afternoon and a permanent organization was effected, the following officers being elected to serve the coming year: Thomas C. Callister, president; M. J. Greenwood, vice president; Walter Day, secretary and treasurer; executive committee, Dr. A. N. Hansen, James A. Melville, Alma Greenwood, C. F. Christianson, Maudie Melville, Mrs. C. W. Kelly and Mrs. Hattie E. Kimball.

The program started at 6 o'clock, when chairman M. J. Greenwood called the meeting to order and explained the purposes and aims of the proposed organization. He was followed by W. H. K. who delivered an address, referring to his early days spent in Millard county, and of the desire for education and the love of the residents of that county. Edward P. Kimball then rendered a piano selection which was followed by the toast "Old Millard County," by J. A. Melville. Next on the program was a solo by Lorenzo Smith, Mrs. Lois Greenwood, accompanist, followed by a reading by Mrs. Francis Rasmussen. Bert Olson responded to the toast "Why I Left Millard County." The program was completed with a song by Mrs. Clinton D. Ray.

The association will meet every four weeks during the summer, the next meeting to take place at Saltair.

STRONG OPPOSITION.

House Committee Hears Arguments Against Department of Health. Washington, June 4.—Attacking the proposed federal department of health on constitutional grounds, former Governor Bates of Massachusetts today opened the arguments of the opposition to such legislation before the House committee on interstate commerce.

Mr. Bates contended that absence of scientific health regulation and protection in certain parts of the country furnished no constitutional reason to justify the federal government in trying to supplement local action by measures of its own.

Under questioning, he said that as a matter of fact there was no constitutional warrant for the existence of the department of agriculture.

A Word to the June Bride

Make your home attractive. The home that is appreciated pays best dividends in comfort and happiness. Our stock was never so complete—our qualities never better—our prices never more reasonable—our credit system never so liberal as today. Term made to your satisfaction—you can pay by the week or by the month.

JOHN A. SHARP, President.
E. E. JENKINS, Vice President.
W. G. CRAWFORD, Director.

Trade With Your Friends

C. E. DAVEY, Manager.
W. L. CRAWFORD, Director.
H. J. SMITH, Jr., Secy. and Treas.

We have everything necessary to furnish the cozy home—you will be simply delighted with the stylish showing that awaits you.
